Summary

Cybersecurity undergraduate with practical experience in ethical hacking, malware analysis, web security, and security tool development. Skilled in Python, Linux environments, and cybersecurity tools including Burp Suite, Wireshark, Nmap, and YARA. Passionate about building real-world cybersecurity solutions and continuously improving offensive security and digital forensics skills.

Education

Kakinada Institute of Engineering and Technology, Kakinada (2022 – Present)

B.Tech in Cyber Security

Current CGPA: 7.2 / 10

Sri Chaitanya Junior College, Tuni (2019 – 2021)

Intermediate (Class XII) – 84.1%

Atchuta English Medium School, Tuni (2019)

Secondary School (Class X) – 95%

Technical Skills

Programming: Python, C

Cybersecurity: Ethical Hacking, VAPT, Malware Analysis, Digital Forensics, Web Application Security

Security Tools: Burp Suite, Nmap, Wireshark, Hashcat, YARA

Web Technologies: HTML, CSS, Flask

Platforms: Kali Linux, Windows, VMware, VS Code

Soft Skills: Teamwork, Leadership, Quick Learner, Communication

Projects

CYBER-REQ – HTTP Request Simulation Tool Python, Tkinter

Developed a GUI-based cybersecurity testing tool capable of generating controlled HTTP request traffic with configurable delays, real-time logging, and request monitoring for educational testing environments.

CYBER X – Malware Scanner using YARA Rules Flask, HTML, YARA

Built a malware detection platform that scans uploaded files using custom YARA signatures and generates structured scan reports with malware detection insights and rule-based analysis.

CYBER-KEY-PULSE – Educational Keylogger Simulation Python, Tkinter

Designed a GUI-based educational project demonstrating keystroke logging concepts, secure log export functionality, and monitoring controls for cybersecurity learning purposes.

Internships

Cyber Crime Department Internship – Vizag

Completed a 2-week internship focused on cybercrime investigation workflows, digital evidence handling, and forensic investigation procedures.

Redynox Cybersecurity Internship (July – August 2025)

Worked on cybersecurity concepts related to cybercrime prevention, infrastructure security, and security awareness during a one-month internship program.

AICTE Virtual Internships

– Cybersecurity Internship – Palo Alto Networks (Cohort 9)

– Ethical Hacking Internship (Cohort 10)

– Networking Internship – Zscaler (Cohort 11)

Achievements

– Conducted a cybersecurity awareness session on cyber crimes for NCC Cadets

– Delivered a technical presentation on Drone Technology and its applications

- Selected for Cyber Crime Department Internship, Vizag
- Gold Medalist in NSC Seamanship Event

Certifications

- Foundations of Cybersecurity – Google Career Certificates
- Cybersecurity Essentials – Palo Alto Networks
- Saviynt Identity Security for the AI Age (ISAA) Certification
- Redynox Cybersecurity Internship Completion Certificate
- Skill India Cyber Security Certification – Mahindra Foundation
